

# SPE INTERNATIONAL CONFERENCE AND EXHIBITION ON HEALTH, SAFETY, SECURITY AND SOCIAL RESPONSIBILITY

## About the Conference

For more than 25 years, the SPE International Conference on Health, Safety, Security, Environment and Social Responsibility has been the E&P industry's premier international event highlighting HSE best practices and challenges.

Our goal is to reach beyond the industry by introducing presentations, special topical sessions, and networking opportunities unavailable anywhere else.

## Who Attends

- HSE managers, leaders, and professionals
- Safety and operations managers
- Compliance officers
- Inspectors
- Environmental specialists
- Business development managers
- Management and leadership
- Consultants
- Educators
- Government officials and regulators

## Topics Covered

- Environment
- Health in the communities and the working environment
- HSE management
- Personal and process safety
- Security and emergency response
- Social responsibility and sustainability

Society of Petroleum Engineers

M-I SWACO

Petrobras

PETRONAS

Schlumberger

Shell

Siemens AG Oil and Gas

Statoil

Talisman

The International Association  
of Oil and Gas Producers

Total

United Safety

International FZE

### About the Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose members are engaged in energy resources development and production. SPE serves more than 164,000 members in 143 countries worldwide. SPE is a key resource for technical knowledge related to the oil and gas exploration and production industry and provides services through its publications, events, training courses, and online resources at [www.spe.org](http://www.spe.org).

SPE is a not-for-profit organisation. Income from events is invested back into SPE to support many other Society programmes. When you attend an SPE event, you help provide even more opportunities for industry professionals to enhance their technical and professional competence. Scholarships, certification, the Distinguished Lecturer programme, and SPE's energy education programme Energy4me are just a few examples of programmes that are supported by SPE.

### HSE Now

HSE Now is a source for news and technical information affecting the health, safety, security, environment, social responsibility, regulation, and quality aspects of the upstream oil and gas industry. HSE Now is updated continually and is available to all SPE members.
